BASEMENT FLOOD REDUCTION WEBSITE LAUNCHED

A new website that provides information on how to reduce the chances of experiencing basement flooding and other types of water damage has been launched by the Institute for Catastrophic Loss Reduction (ICLR). The website leverages the work found in the ICLR Handbook for reducing basement flooding and includes a quick quiz that homeowners can take to measure their level of risk.

The Website also makes the complete Handbook and a smaller, more readable; Protect Your Home From Basement Flooding booklet in both official languages. To access this information go to: www.basementfloodreduction.com.
