## Fish Remains

Fish remains are being deposited along trails in wooded areas around the Red Lake town site, as well as in Municipal garbage cans throughout the Municipality. These practices affect the health and safety of the whole community.

Important Points:

1. Freeze fish remains and put out on garbage day wrapped in newspaper to keep insulated and frozen until they are picked up.
2. Fish remains and other household garbage in municipal garbage cans act as an attractant for wildlife.
3. The minimum set fine under By-Law No. 41-2015 *for the intentional feeding of wildlife or making available food attractants or other substances for the consumption of wildlife is \$300.00 per offence.*
