

THE CORPORATION OF THE MUNICIPALITY OF RED LAKE

2009 BUDGET

In preparation of the 2009 Budget, the Municipality of Red Lake maintains the quality of service while adapting to the pressures associated with the global economic conditions, the changing community needs and the increasing costs of utilities and human resources.

At the same time the Municipality continues to adjust to decreases in commercial and industrial assessment, while endeavoring to create an environment for commercial and industrial growth. Both the Highway Commercial and Nungessor Road Projects encompass this goal of Council.

For the preparation of the budget, the following principles were utilized:

- Maintain existing services levels;
- Implementation of an infrastructure upgrade and replacement program, particularly water, sewage and municipal roads;
- Identify and implement cost saving measures and efficiencies wherever possible;
- Support Council's objectives and goals.

Council and staff endeavor to provide services in effective, cost efficient manners. The Municipality will continue to evaluate services and programs provided. Cost reductions achieved will continue to be implemented into future budgets.
